

I am writing to recommend to anyone looking to get their child into football to try Jon's Grassroots Football Development School set up.

Jon is a very friendly and knowledgeable coach who is not only friendly but fully committed to helping players of all abilities to fulfil their potential while learning in a fun and friendly environment that doesn't cost the earth. It doesn't matter if you are new to football or wishing to get back into football there is always a fun session awaiting you.

I have had the pleasure of receiving a number of female players from Jon's Development School over the last 4/5 years when they are ready for a team and each player and parent cannot speak highly enough of how Jon has given their child the confidence and football skills to move on to playing for a grass roots club.

Many thanks to Jon for the players and your continued support.

Mark Wheatley
